

RUSTBUSTER PURPLE-X

PRODUCT DESCRIPTION

Rustbuster Purple-X is designed to remove rust stains from delicate surfaces when other rust removers cannot due to their corrosive nature. Non-acid rust remover converts rust compounds into a water-soluble solution. Rustbuster Purple-X is Ph neutral.

PRINCIPAL BENEFITS

- Easy to use formula.
- Fast Acting.
- Changes colour when working.
- Water rinsible.
- Ph Neutral.
- Non-Acid.

APPLICATION INFORMATION

Product Description	A pale Pink liquid (Dark purple when working) for the quick removal of rust and stains from steel, stone, concrete and marine GRP
Directions of Use	<p>Always test in a small hidden portion of the surface to check compatibility and performance.</p> <p>Remove any heavy layered rust with a wire brush.</p> <p>Apply neat product generously to the dry surface .</p> <p>Work Purple-X into the rust using a brush. Purple-X will go from light pink to dark purple then just watch it work.</p> <p>Keep the brush moving until all of the rust is dissolved and then wash away with fresh water.</p> <p>Once applied do not let the product dry out, reapply if the surface becomes dry.</p>
Cleaning	Brushes and equipment used can be washed clean in fresh water.
Safety	Wear suitable protective clothing, gloves and eye protection
